

Product Overview

These connectors clamp covers down onto cable tray sections, holding them secure against wind and weather for the life of the installation.

- Heavy-duty double clamp design
- For use with all cover types except hat and peak covers
- Aluminum, sized for the 4" loading depth tray line
- Each connector includes two 1/4"-20 carriage bolts with four hex nuts, flat washers, and lock washers
- Suggested spacing: 2 per 12' section indoors, 3 per 12' outdoors, 5 per 12' in high wind applications
