

Product Overview

This clamp anchors cable tray sections to their support structure, doubling as an expansion guide that lets the tray move with thermal expansion while staying seated.

- Combination hold-down clamp and expansion guide
- Hot-dip galvanized steel construction
- Accepts 1/2" hardware: pairs with a 1/2"-13 x 1-1/4" cap screw, flat washer, and clamping nut
- Mounting hardware purchased separately to suit the support system
- Also produced in 316 stainless steel and aluminum versions, please inquire
